How does this affect me?

Today's web user expects a fast and seamless website experience. Delivering that fast experience can result in increased visits, conversions and overall happiness.

As if you didn't need more incentive, **Google has announced that they are using page speed in their ranking algorithm.**

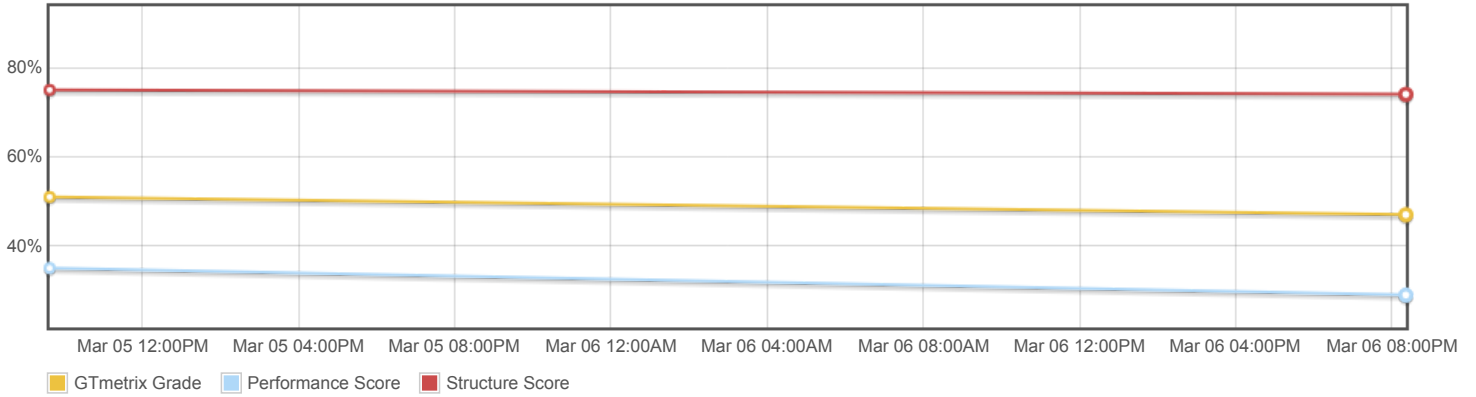

About GTmetrix

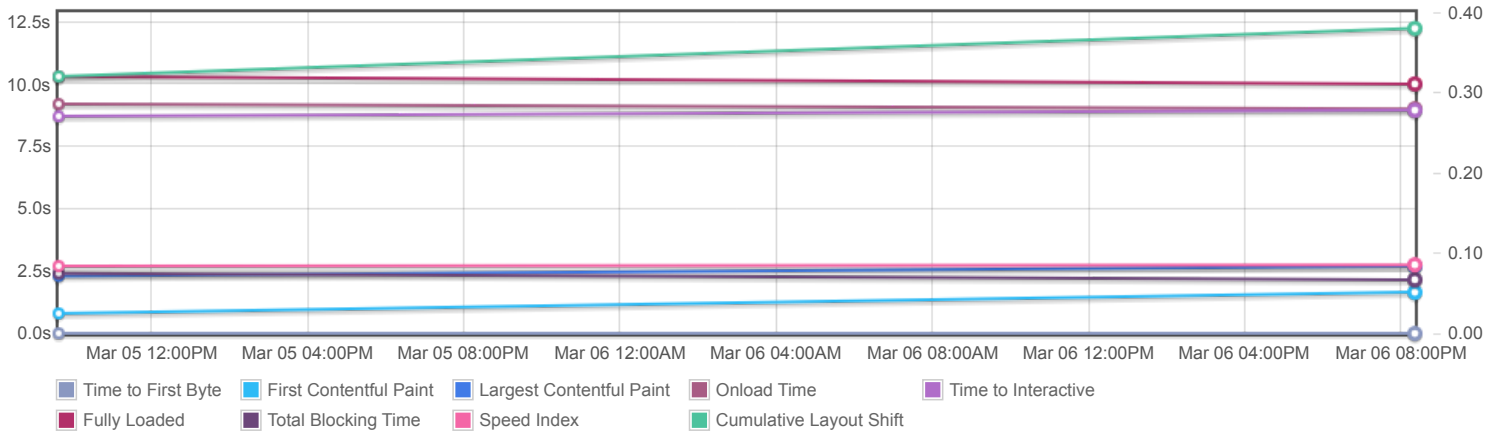

GTmetrix is developed by the good folks at **Carbon60**, a Canadian hosting company with over 28 years experience in web technology.

Reduce initial server response time FCP LCP

Root document took 3ms

Keep the server response time for the main document short because all other requests depend on it.

Minimize main-thread work TBT

Main-thread busy for 8.1s

Consider reducing the time spent parsing, compiling and executing JS. You may find delivering smaller JS payloads helps with this.
